

Weaving the Tapestry of Collective Possibility

We have come to give birth to a new world through consciousness. A common thread lies in the mystical traditions of the Sutras, Gnostics, Sufis, Mystic Christians, Indigenous cultures and oral Wisdom traditions.

These ancient texts and oral teachings recognize the interconnectedness and interdependence of all beings, and the Universe as a holographic and fractal expression of “as above so below, and as below so above.”

As we co-create our tomorrow, these teachings become an intrinsic core of ‘love as substance’ that brings a more enlightened perspective of transformation not only to our personal selves but also to the planet as a whole.

Over the weekend we will:

- Identify and encourage exploration of personal innate knowing, and capitalize on existing strengths to increase trust in the integrated Self to live our life purpose.
- Expand our ability to conceptualize beyond the duality of the material world to include a more intuitive and subtle energy context, both for ourselves and for the world as a whole.
